

## Fruit Street School PEAK Literacy Night

The Fruit Street School held their first Literacy Peak Night. The students were able to view old photographs and then create their own story and picture. The students were presented with story starters and the art students from Bangor High School provided support for the students and their drawings. The PEAK Night had over 100 people in attendance. Wendy Libby, art teacher, Kristi Charette, Literacy Coach, and the art students did a fabulous job creating this idea for the Fruit Street School families.
